The BI vendor, Maia Intelligence hosted a partner conference in Mumbai recently. Attended by its ISV partners, solution partners, and system integrators, the event's main focus was 'Selling BI to SMBs'. The event had a panel discussion on 'What Next After ERP?' The panelists included Janak Bhuta of Globalware, Vikram Seth of Software At Work, Hemant Nerurkar of MindCraft, Suketu Shah of Soham Computers, and Sanjay Mehta of Maia.

MAIA holds partner conference

The BI vendor, MAIA Intelligence hosted a partner conference in Mumbai recently.

The event aimed at educating the partners about relevance and benefits of MAIA's 1KEY BI suite to SMB customers in India. The event was attended by MAIA's ISV partners, solution partners, and system integrators.

In his welcome address, Bhavin Shah, Executive, Strategic Alliance & Channel, MAIA Intelligence gave an overview of various product offerings of the company. In his presentation, Sanjay Mehta, CEO, MAIA Intelligence showed how SMBs can benefit from the different modules of 1KEY MIS Server offerings. He also elaborated on 1KEY Agile BI suite and its applicability in an SMB environment.

The event also had a panel discussion titled 'What Next After ERP?' The panelists included software industry experts, Janak Bhuta, CEO, Globalware System and Software Solutions, Vikram Seth, Chief Executive, Software At Work India, Hemant Nerurkar, Managing Director, MindCraft Software, Suketu Shah, CEO, Soham Computers, and Sanjay Mehta of MAIA.

The panelists expressed their views about the current state of IT, ERP in particular, across the SMB landscape and why it's time SMBs looked at employing Business Intelligence (BI) tools to gain higher levels of efficiency and agility.
