Religare Technologies partners with MAIA Intelligence for 1KEY Business Intelligence

MAIA Intelligence, a provider of Business Intelligence (BI) software products for ad-hoc reporting and complex analysis that meet the MIS needs of corporate business users, has announced that Religare Technova IT Services Ltd. (represented by the brand Religare Technologies) will be a consulting partner of the vendor. Religare Technologies provides enterprise-wide IT services to leading organizations in Financial Services, Insurance, Health Care and Life Sciences domain.

1KEY BI is a Business Intelligence application catering to strategic, tactical and operational data analysis as well as the MIS reporting needs of multiple vertical industries. Under the new agreement, Religare Technologies plans to train and certify its consultants on 1KEY BI in the coming

months. The agreement will enable Religare Technologies to use 1KEY BI for development and demonstration purposes, and to promote 1KEY-based solutions to its enterprise customers.

"Religare Technologies is delighted to partner with MAIA Intelligence," said Ravi Raman, Vice President and Head - BFSI, Religare Technova IT Services Limited "1KEY BI is an excellent choice for our enterprise customers with volumes of data and thousands of employees. 1KEY dashboards, KPI reports, and multi-dimensional analysis coupled with graphical representation of data provide valuable business insights that help enterprises make timely, data-driven decisions to improve corporate performance."

1KEY BI reporting and analytics solutions are well-suited for the enterprise customers of

Sanjay Mehta
CEO, MAIA INTELLIGENCE

The agreement will broaden MAIA Intelligence's reach into key vertical markets and enable us to leverage the breadth of Religare Technologies' enterprise IT experience. We look forward to identifying new business opportunities with Religare

Religare Technologies, and shall gain greater business insights from their large volumes of data.

"We are pleased to forge this new agreement with Religare Technologies and add them to our portfolio of services partners," said Sanjay Mehta, MAIA Intelligence's CEO. "The agreement will broaden MAIA Intelligence's reach into key vertical markets and enable us to leverage the breadth of Religare Technologies' enterprise IT experience. We look forward to identifying new business opportunities with Religare."

1KEY BI enables business users to analyze a tremendous amount of information in an easy to use and highly visual manner, which helps them quickly identify trends and gain greater insights into data to make analytically-based decisions. ■
