MAIA Intelligence is India's first and only BI Product Development company to exhibit its products on Microsoft Platform at the worldwide BI conference by Microsoft that offers a unique and exclusive chance for exchange of information.

MAIA Intelligence has been invited to the conference because of their proven business intelligence products like 1KEY and WebKeY. The company shall be exhibiting these products to customers and partners at this Business Intelligence Conference. The conference, organized in Seattle, WA, USA from 9-11 May, 2007.

MAIA Intelligence creates specialized MIS software that helps create visually stunning analytics for companies that have voluminous data from disparate data sources, and makes it available for every level of enterprise, at affordable prices. As a pioneer among companies that looked at XBRL (eXtensible

Business Reporting Language) based on XML, the company wishes to tie up with software solutions companies to jointly explore business opportunities in the US.

At such time when technology is creating such a change in the global marketplace, by reserving technical and strategy meetings with our team you will enhance your BI strategic vision and offer practical solutions to shaping your business agenda over the coming months. MAIA Intelligence will also offer hands on trials of their products.
