MAIA software at Bharat Forge

Pune, July 25, 2008

Business intelligence software solutions company MAIA Intelligence Pvt. Ltd. announced on Thursday its deal with Bharat Forge Limited for installation of its 1KEY Agile business intelligence suite. It will help the forgings major meet reporting and analytics challenges in presenting data to the top management and principal decision makers.

MAIA Intelligence CEO Sanjay Mehta said that initially, data from manufacturing finance and operations will be connected to 1KEY's information dashboards and content-rich reports which will offer quick and accurate insights into its inventory, costs, customers and profitability. The solution will facilitate market performance analysis, operations, strategic account management, and global sales analysis on a daily basis, Mehta said. TNN
